

Curing paralysis together

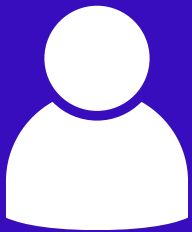

spinal
research

every
2

hours someone is
paralysed by a spinal
cord injury in the UK

**15.4
million**

people estimated
to live with a SCI
globally (WHO)

4,400

new injuries
occur every
year in the UK

105,000

people currently
living with a SCI
in the UK

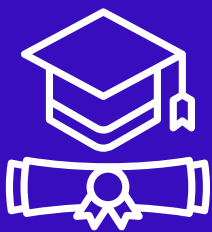

12

SCI injuries
occur every
day in the UK

£0.00

spent on spinal
treatment
research by UK
government/NHS

We fund groundbreaking research that will **cure** paralysis

50+

phD studentships
funded. Many of
these specialists
are now running
world-class
research labs

3-5

years until some
of our projects
become real life
treatments

2.2

million pounds
invested in
research over
the last few
years

1981

Spinal Research
established

150+

top researchers in
the field of spinal
cord injury attend
our annual
conference to
share learnings
